

CHECKLIST OF QUESTIONS

TO FIND THE MOST EXPERIENCED DOCTOR

More and more research is finding that patients treated by more experience doctors have better results. Its important to know if the doctor is an expert in the cancer treatment he or she is offering:

- 1) Are you qualified in this type of treatment? What is your area of specialisation? Do you specialise in treating specific organ cancers e.g. gynecological, breast, urological, head & neck cancers etc.?
- 2) How many patient like me have you treated?
- 3) How many procedures like the one you are suggesting have you performed?
- 4) Do you perform this treatment often?
- 5) How many of your patients have had complications?
